--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on release of April 17, 1975 (based on reports from exporters during the week ending April 6, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 increased by 272,300 metric tons (MT). Commitments to India jumped by 333,400 MT to bring the total committed to that country in 1974/75 to almost 4.5 million MT. Apparent export commitments were also higher to Bangladesh (66,000 MT) and Algeria (105,500 MT), the fifth consecutive weekly increase to that country. Partially offsetting those increased commitments were reduced commitments to the European Community (EC) by 89,800 MT--the fifth consecutive weekly decline--Poland by 45,700 MT, and to unknown destinations by 122,200 MT.

For 1975/76 shipment, the commitment to the EC has increased by 81,000 MT, bringing the total commitment to that group of countries for next season to 373,000 MT.

Feedgrains: The apparent export commitment for 1974/75 dropped by 772,400 MT. Total corn commitments fell 505,500 MT and was largely accounted for by ~~reduced~~ commitments to the EC (253,300 MT) and Japan (244,400 MT). Higher commitments to East Germany (106,700 MT), Spain (79,100 MT), and Egypt (50,000 MT) were largely offset by a decline in commitments to unknown destinations of 295,400 MT. Sorghum commitments declined by 94,700 MT--almost all accounted for by the 83,600 MT decline in commitments to Japan.

Rice: The apparent export commitment for 1974/75 increased by 44,600 MT, with an increase in the commitment to Bangladesh of 35,500 MT and minor increases to other destinations.

Soybeans: The soybean complex continued to experience weakness as apparent export commitments for 1974/75 declined by 481,000 MT, the sharpest weekly decline in the current season. While export cancellations to the EC continued, significant declines in apparent export commitments were also noted for Japan.

Soybean Meal: Apparent export commitments for 1974/75 declined by 353,000 MT, primarily to EC destinations and Poland. In 1974 soybean meal consumption in West Germany totaled 2.315 million MT, compared to 2.113 million MT in 1973. Favorable prices and increasing pork and egg production favored soybean meal utilization. A 30 percent increase was reported in the first quarter of the current marketing year.

Soybean Oil: Apparent export commitments declined by 25,200 MT, the sharpest weekly decline this season. As expected, cancellation of soybean export sales to the EC continued. An unstabilizing factor in the soybean oil export market was reported from Brazil on April 11, when it was announced that tax credits would be utilized to stimulate export sales of soybean oil. A credit of 8 percent on the Circulation of Goods Tax (sales tax) and a credit of 8 percent on the Industrialized Products Tax will be granted for all soybean oil shipments before May 31. The credits will drop to 6 percent on each respective tax for shipments between June 1 and July 31.

Cotton: The Upland cotton export pace picked up with the shipment of 105,000 running bales (RB). Relatively high exports during the first week of the month have developed into a pattern. Total commitments continued to inch up with a net increase of 29,000 RB during the week. Even so, cumulative exports now exceed outstanding sales for the first time this season. Almost 90 percent of the nearly 2.3 million RB outstanding sales are registered to Far East destinations. Sixty percent is in staples of 1-1/16" or more with 20 percent below 1". Sales for the next marketing year fell somewhat below the pace of the previous two weeks. Thus far, interest in 1975/76 delivery has been almost entirely in staples of 1-1/16" or more.

ELS commitments dropped 1,100 RB as Korean cancellations more than offset new business to West Germany. Exports of 1,100 RB to Spain completed registration to that source, leaving total outstanding sales at 7,200 RB--all to Korea, Japan, and West Germany.
